CLAIMS INJURED WOMAN COULD WIELD BROOMSTICK.

Railroad Agent Alleges That Mrs. Jordan Whipped Her Children Soon After Accident.

Samuel C. Brown, claim agent of the St. Louis and Meramec River Railroad Company, filed an affidavit in the Clayton Circuit Court yesterday in which he alleged that Mrs. Stella Jordan, who is suing his company for damages, was able to vigorously wield a broomstick against her children at the time she was supposed to have been almost dying from her injuries.

Mrs. Jordan was injured at Meramec Highlands one day during the spring of 1896 and now seeks to hold the railway company liable. A Clayton jury awarded her \$7,000 damages about three weeks ago in the Clayton Circuit Court. The affidavit filed by Brown yesterday was in support of a motion for a new trial. He claims the injury complained of was caused from an angry source and states in support of the contention that Mrs. Jordan used a broom on her children the day after the accident is charged to have occurred.

CRISIS AT ZIEGLER HAS BEEN DELAYED

Company Makes No Effort to Resume Operations and Union Pickets Are Vigilant.

NEGROES NOT NOW EXPECTED.

Superintendent Whittier Says They Are Not Wanted—Work to Be Begun When Stockade Is Completed.

BY A STAFF CORRESPONDENT.

Benton, Ill., July 25.—Contrary to the expectations of both Mr. Ziegler's managers and to the striking miners, no attempt was made today to resume operations at the Ziegler mines and the first crisis of the strike has been thereby postponed for the present, at least.

The only reason that the intention to open up the Ziegler mine is delayed lies in the fact that there are no men now within the boundaries of Ziegler who are capable of working the machines and operating the mines.

The striking miners have thus far been successful in turning back Ziegler-bound laboring men. Their outposts and pickets at all outlying stations on railroads which reach the strike-ridden plant of the millionaire magnate have not used their persuasive powers in vain and reports to the headquarters at Camp Turner to-night indicate that several parties have been intercepted to-day and sent back the way they came.

PEACEFUL PICKETING.

This peaceful picketing is now the plan of campaign of the ex-Zieglerites. Their leaders insist that they are not looking for trouble and do not anticipate any as long as moral suasion has no effect. From these leaders still comes the assertion that nonunion miners from the South are headed this way, but no definite statement as to their whereabouts or number can be obtained.

Superintendent Whittier authorizes the Republic to make this statement for the Ziegler interests in regard to the matter: "We are not importing negroes to Ziegler and will not do so. We do not want them as long as moral suasion has no effect. All that reports to the contrary are false."

"Why do you expect to resume operations?" was asked of Mr. Whittier. "Whenever we are ready to protect our mines we will open them. We will run them with nonunion men and the union will not dictate when they will be opened or how they will be operated."

STOCKADE RUSHED.

Every day long work has been progressing feverishly upon the stockade which will protect the shaft. The union carpenters who have been engaged in its construction have all quit, and ordinary laborers are finishing the job at exorbitant wages. Two sides of the four-sided stockade are completed and by the end of the week the shaft will be closed.

Two city sheriffs were further increased to-day, and protective measures have become more stringent. St. Louis, a United States Post-Office Inspector, was to-day halted by the guards. There is a post office within Ziegler, and complaints have been made that the union miners were unable to procure their mail.

When a miner approaches an outpost and demands admission on the ground that he wishes to get his mail, the guard telephones in and if there is mail for the miner it is sent out by a deputy.

It is reported that a letter from the Congressman George W. Smith, through physician, reached the Post-Office Department, and that the clerk of the inspector resided in company with the two inspectors visited Ziegler.

After he had shown his authority he was permitted to pass on, but the miners were detained.

Means is from Mount Vernon, but returned to the incident. He returned on the afternoon train. The miners claim that Mr. Ziegler desires to remove the Post Office from Benton, and that the authorities decline to consent.

Two engineers reached Christopher today. They were accompanied by two men and were induced to return to St. Louis. The last of the engineering force left Ziegler this afternoon and the miners are cold. The holding engineer, Hump Williams, refused to bring up coal Saturday morning, and there is no fuel for getting up steam.

One of the Ziegler hospital staff, who was in Benton today, in the information was obtained that it is the intention of the company to open up August 1 if the stockade is completed. It is stated that could neither be confirmed nor discredited by the Ziegler staff.

To-day has been exceptionally quiet at Christopher. Camp Turner has been deserted all day. The men who are on picket duty, and there is no doubt about it, the situation is still tense, however. The Ziegler staff speak with pride of the conflict, which seems sure to come.

Mr. Ziegler has not been in Ziegler since last Tuesday, and is not expected in the near future. It is said he is in Maine.

E. O. PHILLIPS.

AUTOMOBILISTS COVER 16,200 MILES OF JOURNEY.

Mr. and Mrs. Charles J. Glidden of Boston Are Making a Tour of the World.

A Boston man who will be with the New England delegation of the American Automobile Association on its arrival in St. Louis August 12, has already covered 16,200 miles of a 40,000-mile tour in his automobile. He is Charles J. Glidden, who, with Mrs. Glidden, has traveled over Europe with his machine. From St. Louis he will start on a journey through the Pacific and the Orient.

Mr. Glidden's machine is equipped with a new mechanical device on its wheels that will permit of its use on the steel rails of railroads where wagon roads are impassable. The wheels are made with flanges that will run on the rails and will be maintained on the railway's right of way.

The car, which has already attracted much attention in Europe, where it began, with his machine he made the record of the National Automobile Club to cross the Arctic Circle. His traveling companions are Mrs. Glidden and Charles Thomas of London, chauffeur. He was photographed with them directly north of Sweden at the point where the crossing of the Arctic line was made.

PIANO RECAL BY CHAIR GIRL.

Senorita Reynal Will Render Classical.

This afternoon's piano recital in Recital Hall at 4:30 o'clock will be given by Senorita Laura G. Reynal of Havana, Cuba. Miss Reynal, who is but 17 years of age, is a graduate of the National Musical Conservatory of Music in Havana, and has won first honors and gold medals in many contests in Cuba. Her appearance to-morrow is looked forward to with much interest by musicians, as she is regarded as a high-class pianoforte performer.
